INTERNSHIP (July 2023 – Sept 2023)

- ❖ I have completed my 3 months internship on Full Stack Web Development using **MERN** Technology.
- ❖ I got certified to successfully completed my internship from Learn & Build.
- ❖ During Internship period I got hand on experience on web development, and got a good command on **HTML, CSS, JavaScript, MongoDB, React.JS, Node.JS, Express.JS**.
- ❖ I made a photo sharing Website during Internship. In which people can seamlessly upload their photos and save them.

PROJECTS

- ❖ I have created a **Real Estate Website** using **MERN** Technology. In which user can login and signup using **Google Authentication** and can search for desired houses for Rent, Buy and also there is a feature of Contact Landlord so that user directly contact to Landlord.
- ❖ **Website Link-** <https://mern-estate-c3z7.onrender.com>
- ❖ I have also created a **Food Ordering & Delivery Website** using **Next.JS, Prisma PostgreSQL, React.JS & Java Script**. I used Google Authentication for Sign In and Sign Out and Completely Secure Website. In this user can order food and make payment using Stripe Gateway and check order status also.
